

## Music and Drama

Coming Attractions for  
Wichita Amusement Lovers.

**At the Crawford.**  
What promises to be the largest advance sale of seats for a distinctly dramatic performance that has been known in this city in some time is that for the presentation of "David Harum" at the Crawford, Tuesday, February 23. There is no questioning the fact that extraordinary interest centers in the production of this play. As a story of life in central New York, the book had a tremendous vogue, and the play adapted from it will in all likelihood find favor for many years. Thus far the play has won much success and it contains a great many things which appeal to the average theater-goer. The story is pretty and simply told, and its humor is fresh and quaint. Its characters are deftly drawn, and to readers of the book it will be as if they had stepped out from the printed pages to the stage. The presentation of the play is being awaited with much interest. Everyone is anxious to get a look at David Harum, at Aunt Polly, Dick Lardbore, John Lenox and the other characters; to see David sell Deacon Perkins the bay horse and to hear the story of the visit to the circus as told to William Cullen. Mr. Turner's hit in the title part is very strong and the promise is made that the production will be found an elaborate one. The play ran for sixteen weeks in New York, six in Chicago, two months in Boston and six weeks in Philadelphia.

The Brothers Byrne, with a choice company of comedians, pantomimists and young women, present their rollicking burlesque comedy, "Night Belles," at the Crawford, Wednesday, February 24. The play is a musical farce-comedy, with a spectacular pantomime. Mr. John Byrne is a master of the art of planning a play that will be full of musical effects, the sudden use of which is amusing in the extreme. The school yard scene in the first act brings the leader on the stage, and the many escapades of the boys in tricking their worthy master are ludicrous. Indeed, the human ladder in every well constructed and its combinations are most apt, perhaps the best of the school yard scene, and the carriage in the first act is the most amusing of anything. The school yard scene is followed by a very pretty dance, as well as some clever grotesque dancing by members of the company.

The best scene, however, caps the climax of this act, and the quick change from stateroom to stateroom make lots of amusement. The revolving and final collapse of the ship is an effect never to be forgotten. The grand Roman stateroom in the last act is very effective, and when they change to the stateroom poses under the calcium lights they make very pretty pictures. The acrobatic feats, including some new positions, are well performed. Come, indeed, to the show between father and prospective father, and the perplexing question of "Gussie, who do I belong to?" might be asked by each one of the audience, for such a delightful jumble of music, nonsense, magic and pantomime is enough to turn a most sober head.

### BLANCHE WALSH IN "RESURRECTION"

Local play-goers will have the opportunity of seeing at the Crawford theater on Saturday, February 27, "Resurrection," in which the radiant Blanche Walsh, the American Duse, as she is called, has made the triumph of her career. It must be borne in mind that this is not any number two company, nor any doubtful version of the play. "Resurrection" as it will be seen here is the famous dramatization by Battello and Morton which had a run of over 200 nights in Paris, was the reigning dramatic sensation of London, and in which Miss Walsh played for four months at the Victoria theater, New York. It will be seen here with practically the same great cast and the complete production.

The main theme of the play is one of suffering dramatic intensity, as much so as at times to make the audience gasp. It is a story of passion, pity, misery, love and good will. It concerns the fatalistic which overtake a man and woman, who, through sexual desire on the one side and absolute love and ignorance on the other, break the moral law laid down for the welfare of society. It is laid in Russia, but its locale might be shifted to any civilized community without detracting from the necessity of the reform it aims to bring about. In other words, it declares that the future of the race demands that the excuse made by the first man Adam for his fall is cowardly and unjust; that masculine humanity must be subject to as great a penalty for sexual crime as is imposed upon the opposite sex, which, as everyone is aware, is not the case at present. It is not a doubtful or existing condition can ever be changed, but in his now famous book Tolstoy has at least done more to bring about such a desirable millennium than have any of his contemporaries.

Local interest in the event, as was to be expected, is very great. Applications for seats have been so numerous that it is impossible to accommodate more than half of those who wish to see the performance. So it will be well to reserve your seats on Thursday, when the sale opens at House's jewelry store.

In spite of the great antiquity of the period of "Mary of Magdala" in her great production of which Mrs. Fiske will be seen at the Crawford opera house on Saturday evening, March 5, the times and manners of the people with which that drama deals are carefully and artistically pictured. Great study and pains were necessary, particularly as to the architectural treatment of this drama. One scene, for instance, a room in the house of the chief figure of the play, has been constructed, adorned and furnished with reference to the character and state of Mary of Magdala, as the dramatist has pictured her, on the opening of the drama, with the warm of philosophical authorities. She was a patriotic and a woman of great freedom and luxury. While the Jews, according to the Bible, were not so much interested in many other fields, they were not slow to adopt the forms of other races and nations to enhance their own luxuries. At the time of the play Jerusalem had incorporated in its buildings the ideas of many peoples. Egyptian, Assyrian, Syrian, Greek and Roman had supplied them ideas. Thus, the Assyrian treatment naturally would appeal to persons whose fondness for luxury would guide and whose wealth would enable her to realize a home surrounded in these days, for instance, the best of the time, which, though a time of reverence in of richness. The museum of Egypt and private collections supplied, authorizing for the construction of this scene, as well as for the various articles long quoted in the book and that are used to furnish and adorn that scene. The play has been taken with all the objects of the play in which Mrs. Fiske agrees and the production of which has received the approval of modern stagecraft.

## ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have  
Kidney Trouble and Never  
Suspect It.

To Prove what the Great Kidney Remedy, Swamp-Root, will do for YOU, Every Reader of the Eagle May Have a Sample Bottle Sent Absolutely Free by Mail.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected, and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, for kidney trouble and bad liver. I have used it and derived great benefit from it. I believe it has cured me entirely of kidney and liver trouble, from which I suffered terribly. Most gratefully yours,  
A. R. REYNOLDS, Chief of Police,  
Columbus, Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles, makes your head ache and back ache, causes indigestion, stomach and liver trouble, you get a yellow, yellow complexion, makes you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

The cure for these troubles is Dr. Kilmer's Swamp-Root, the world-famous new kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that is known to medical science.

### How to Find Out

If there is any doubt in your mind as to your condition, take from your urine on rising about four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or if small particles float about in it, your kidneys are in need of immediate attention.

Swamp-Root is pleasant to take and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves who have kidney ailments, because they recognize it as the greatest and most successful remedy for kidney, liver and bladder troubles.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

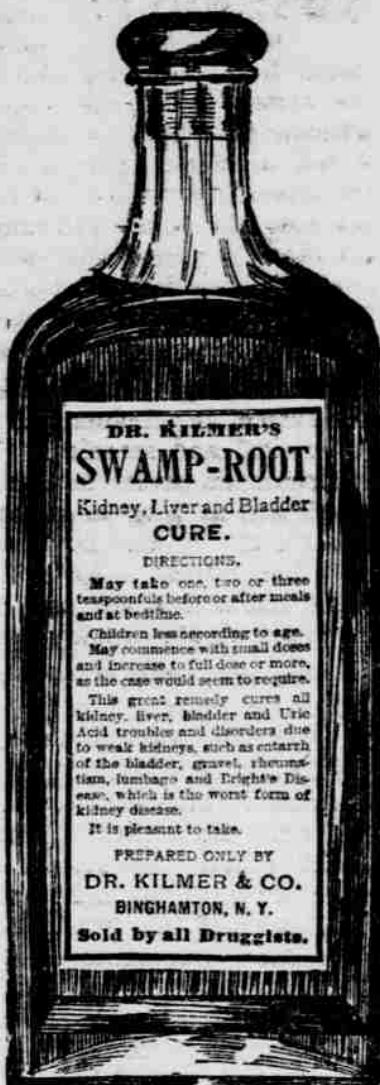

**EDITORIAL NOTE.**—So successful is Swamp-Root in promptly curing even the most distressing cases of kidney, liver or bladder troubles, that to prove its wonderful merits you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women cured. The value for a sample bottle. In sending your address to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in the Wichita Sunday Eagle. The proprietors of this paper guarantee the genuineness of this offer.

**At the Toler.**  
The Nashville Students, with Prof. P. G. Lowery's Famous Concert band, will appear at the auditorium, Tuesday, February 23, and if we judge by the opinion of those who have seen this company we may expect the very best of the season. The company is a large one, having articles of more than ordinary ability usually found with the colored show. The play deals with the colored race as seen before the war, their grand revolution and advancement after thirty years to the present time. The fine band, under the leadership of Prof. P. G. Lowery, the world's greatest cornetist, plays an important part in this respect. They have certainly succeeded beyond question in producing an entertainment that is pleasing the people. No wonder they are meeting with the success they deserve. Prices only 10c, 25c, 50c, 75c.

Arthur Du Coma, the versatile principal of the Du Coma family, has been advanced in more different countries, has played in all drawn a larger salary than any actor on the face of the earth. At present this clever artist is a member of the aggregation known as Ship's Interior Circus, and has by his exceedingly interesting work made many friends and admirers in Wichita.

"Art," as he is familiarly called among his associates, has on different occasions worked for sums varying from fifteen dollars per month to \$400.00 a week. He has undoubtedly originated more stunts in ground and aerial work than any other performer in this line of work. With all the exciting experiences he has passed through in the course of his career, Du Coma likes nothing better than to close the touring season and go to his farm on the banks of the Ohio river to quietly rest, and while away the winter months. To see this simple athlete going through the difficult acts that make up the specialty, one would hardly believe that this finished performer was of the genius farmer, but it is certain that the "joke" as he is wont to call his home, is well kept and in itself is a paying institution. In addition to several head of fine stock which is a hobby, he has equipped a gasoline launch and manages to extract not a little joy in the quieter moments of life. To hear him speak of the farm is as fascinating to the account of any farmer with the exception of the serious life. Du Coma is a farmer for now, while the ordinary man is a farmer for a moment, he does not appear to be only to the man actively engaged in that pursuit.

Da Coma spends a certain portion of each year on his farm, "dubbing" round as he calls it, and claims that the quiet, peaceful rest of that period does more than anything else to properly fit him for the arduous work of the next season.

(Swamp-Root is pleasant to take.)

## COMMITTEE SETS THE DATE

But One Convention Will Be Held This Year.

APRIL 7 AT GUTHRIE

Resolutions Are Passed Backing up McGuire Bill

Guthrie, O. T., Feb. 20.—At the meeting of the Republican territorial central committee held in this city tonight, it was decided by a vote of 21 to 4 to hold the congressional and delegate to Chicago convention at one and the same time.

The committee called the convention to meet at Guthrie Thursday, April 7th. The convention will renominate B. S. McGuire for delegate to congress and name six delegates and six alternates to attend the national convention at Chicago.

The appointment was fixed at one delegate for every 100 votes cast for McGuire and one at large for each county and the Indian reservations. This gave Osage 2, Ottawa 3, Ponca 3, and Kaw 3.

The committee passed a resolution endorsing the national and territorial administrations and commented the work of Delegate McGuire in congress to secure the passage of his separate statehood bill. Copies of these resolutions have been sent to all members of congress and all department officials that they may be no mistake the sentiment of Oklahoma Republicans on statehood.

**SUSTAINS JUDGE RAYMOND.**

**Lease of Indian Lands Belonging to Minors Must Be by Guardian.**

Oklahoma City, O. T., Feb. 20.—The court of appeals today sustained the decision of Judge Raymond holding that lease of Indian lands belonging to minors must be made by a guardian registry appointed. Heretofore leases of such land have been made by parents acting without guardianship authority. Of the twenty million acres of land in Indian territory three-fourths is owned by minors.

The decision, therefore, affects 15,000,000 acres and is considered the most important action in Indian territory affairs since the appointment of the Dawes commission.

**INVESTIGATING CHARGES FILED.**

**Speed, Bayard, Haner and McGuire Are Accused.**

Guthrie, O. T., Feb. 20.—J. N. Lanham of the interior department is in Pawnee, O. T., investigating the charges filed in Washington against United States Attorney Speed, Associate Justice Bayard T. Haner and Congressman B. S. McGuire.

El Reno, O. T., Feb. 20.—Judge W. R. Brown, who is suffering from an attack of pneumonia, was some better today, says the American. Judge Brown is the lecturer in Oklahoma and Indian Territory for the Masonic grand lodge. He is getting up in years and it is thought by many of his friends that the sickness will go hard with the judge.

**"GIRLS" HURRAH FOR SUSAN.**

**On the 84th Anniversary of Her Birthday She Is Cheered.**

New York, Feb. 20.—A Washington dispatch to the World tells the following of Susan B. Anthony's appearance at the convention held last Friday.

"There is no girl, that's enough," was Miss Susan B. Anthony's response to a demonstration by the delegates to the National Woman's Suffrage convention in honor of her eighty-fourth birthday. The convention was waiting for Miss Anthony and as she walked down the aisle hundreds of women stood up, cheered and waved their handkerchiefs in a tumult of enthusiasm.

Miss Anthony did not know that she was receiving an ovation. "What is the matter with all these people?" she asked of some one near her. When she was told that they were celebrating her birthday she blushed like a school girl and tried to get to her seat on the main floor. Mrs. Harriet Taylor Upton, who was presiding over the meeting, invited her to the platform.

"Must I go up there?" she asked with another blush. "Why, I've got on my walking skirt!"

"How do you put on airs as we grow older?" replied Mrs. Upton. After Mrs. Anthony's hesitancy the latter stepped upon the stage and was greeted with renewed cheers. She bowed and smiled and then told the "girls" that that was enough and retired to the rear of the platform.

Miss Anthony headed more than 200 of the women suffragists who visited the White House. The president and Mrs. Roosevelt received them in the East room. The line was held up for several minutes while the president chatted with Miss Anthony.

## A COMRADE OF GENERAL GRANT

Says: "I Do Not Believe Per-na Has a Superior for Catarrh."

BENJAMIN F. HAWKES

Benjamin F. Hawkes, of Washington, D. C., Is One of the Three Living Comrades of General Grant in His Cadet Days at West Point.

In a recent letter from 611 G street, S. W., Washington, D. C., this venerable gentleman says of Per-na:

"I have tried Per-na after having tried in vain other remedies for catarrh, and I can say without reservation that I never felt a symptom of relief until I had given Per-na the simple trial that its advocates advise. I do not believe it has a superior, either as a remedy for catarrh or as a tonic for the depressed and exhausted condition which is one of the effects of the disease."

—Benjamin F. Hawkes.

SAAC BROCK, a citizen of McLennan county, Texas, has lived for 114 years. In speaking of his good health and extreme old age, Mr. Brock says:

"Per-na exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine."

"When epidemics of influenza first began to make their appearance in this country I was a sufferer from this disease. I had several long sleezes with the grip. At first I did not know that Per-na was a remedy for this disease. When I found that it gripped me with the catarrh, I tried Per-na for it, and found it to be just the thing."

—Benjamin F. Hawkes.

Mrs. E. West, 127 Main street, Menasha, Wis., writes: "We have used Per-na in our family for a number of years and when I say that it is a fine medicine for catarrh and colds, I know what I am talking about. I have taken it every spring and fall for four years and I find that it keeps me robust, strong, with splendid appetite, and free from any illness. A few years ago it cured me of catarrh of the stomach, which the doctors had pronounced incurable. I am very much pleased with Per-na. I am 57 years old."

—Mrs. E. West.

ful a place as Japan, which, outside of the United States, is the best place to live in the world. It is just like going into a world of dolls to visit the country. Everything is altogether different from what is found in other countries."

On his visit to Japan, which lasted from 1881 to 1883, Dr. Buntz attended one of the balls given by the Mikado.

**A Guaranteed Cure for Piles.**  
Itching, Bleeding or Protruding Piles. Your druggist will refund money if Pazo Ointment fails to cure you, in 6 to 14 days.

**ELOPED ON SNOWSHOES.**  
Pretty Young Lady Skated Off With a Lumberman.  
Salem, Me., Feb. 20.—There is much wonder here at the elopement of John Manson, aged forty-two and Miss Thelma Luce, the fifteen-year-old daughter of Mr. and Mrs. Bartlett.

Manson is a rough-mannered lumberman while Miss Luce is pretty, refined and accomplished. Manson boarded in the Luce family, but the parents did not expect that there was anything between them until on one of the coldest mornings of this week the two disappeared. Search revealed snowshoe tracks leading toward Farmington.

The father pursued, and at Farmington, twenty-two miles distant, he learned that Manson and Thelma had come there on snowshoes and left on the early train for Portsmouth, N. H. Mr. Luce hastened to the telephone, but the line was temporarily disabled.

He then left on the next Portsmouth-bound train, but again was too late—a justice of the peace had made John and Thelma man and wife before he arrived.

At the sight of her father Thelma threw herself into his arms and wept bitterly and begged his forgiveness, saying she was sorry for what she had done. The next train to Farmington took the unhappy two home.

It is understood that an effort will be made to annul the marriage.

**Per-na is a Catarrhal Tonic Especially Adapted to the Declining Powers of Old Age.**

In old age the mucous membranes become thickened and partly lose their function.

This leads to partial loss of hearing, smell and taste, as well as digestive disturbances.

Per-na corrects all this by its specific operation on all the mucous membranes of the body.

One bottle will convince anyone. Once used and Per-na becomes a life-long stand-by with old and young.

Mrs. F. E. Little, Tolono, Ill., writes: "I can recommend Per-na as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled severely with it for over a year, and also a cough. Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy. I am so well I am contemplating a trip to Yellowstone Park this coming season. How is that for one 71 years old?"

In a later letter she says: "I am only too thankful to you for your kind advice and for the good health that I am enjoying wholly from the use of your Per-na. Have been out to the Yellowstone National Park and many other places of the west, and shall always thank you for your generosity."—Mrs. F. E. Little.

**Strong and Vigorous at the Age of 86.**  
Rev. J. N. Parker, Utica, N. Y., writes: "In June, 1891, I lost my sense of hearing entirely. My hearing had been somewhat impaired for several years, but not so much affected but that I could hold converse with my friends; but in June, 1891, my sense of hearing left me so that I could hear no sound whatever. I was also troubled with severe rheumatic pains in my limbs. I commenced taking Per-na and now my hearing is restored as good as it was prior to June, 1891. My rheumatic pains are all gone. I cannot speak too highly of Per-na, and now when eighty-eight years old can say it has invigorated my whole system."—Rev. J. N. Parker.

Mr. W. R. Schneider, of Terra Hill, Pa., writes: "I got sick every winter, and had a spell of cold in February, 1899. I could not do anything for almost two months. In December, 1899, I saw one of your books about your remedies. Then I wrote to Dr. Hartman for advice, and he wrote that I should commence the use of Per-na, and how to take care of myself. I did not lose one day last winter that I could not tend to my stock. I am sixty-three years old, and I cannot thank you too much for what you have done for me."

If you do not derive prompt and satisfactory results from the use of Per-na, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

organization of four different departments at the Admiralty—a Central Naval Staff, a General Department of Naval Construction, a General Naval Supply Department, and a General Department of Navigation and Fisheries and Naval Industries. The essential point of it is that it appropriates a reasonably sum of money—thirty-seven million pesetas—in such a fashion that Spain may have something to offer to any power where alliance she may desire. Much humiliation was felt in naval circles, some weeks ago, when, after the action accident in the British cruiser Prince George, it was discovered that the actual vessel had no suitable berth for her. The Naval Reconstruction bill now presented would endow Spain with a certain number of armaments and coaling stations sufficiently modern to make the subsequent reconstruction of her fleet a reasonable ambition, and to offer a possible ally tangible advantages of the thirty-seven millions. It would be spent at Ferrol, in order that vessels of 12,000 tons may find there modern shelter and up-to-date appliances, with a coaling station; 1,000,000 would be employed at Cartagena in the transformation of that port into a torpedo station, and 4,000,000 would go to improve the arsenal at Cadix. All these improvements are needed imperatively. Without them reports are agreed that it would be foolish to build a fleet which would have no bases of operation.
